About the Data

- Player batting tables are filtered and sorted based on top 10 players in plate appearances
- Player pitching tables are filtered and sorted based on top 7 players in total batters faced
- Player batting splits tables are filtered and sorted based on top 10 players in plate appearances
 - only players who have faced both LHP and RHP are displayed
- Player pitching splits tables are filtered and sorted based on top 10 players in total batters faced
 - only players who have faced both LHH and RHH are displayed
- In each table, the top values are the actual values for the statistic
 - For the team tables, the bottom values are the league rank (1 is best; 30 is worst)
 - Top 8 in the league values are highlighted **green**
 - Bottom 8 in the league values are highlighted **gold**
 - For the player tables, the bottom values are the percentile rank (100 is best; 0 is worst)
 - Top 25 percentile values are highlighted **green**
 - Bottom 25 percentile values are highlighted **gold**
